# Testimonial

Juliana Molarino Hurtado

Octo 2024

Project owner

He did a great job and I'd definitely hire him again on future project.

Mateo Garcia

Feb 2023

CNTIVO | Project manager

Andri delivers a great looking application as always. Always a pleasure working with Andri.

I've worked with him on multiple occasions now and it's great to have someone you know you will deliver good results

Roshan J.

May 2022

IT Manager

Andri is a persistent man. He doesn't give up easily. A good-natured guy with a good work ethic.

He is nearly always available. From months of working with Andri, I have never seen him go offline.

He literally responds whether it's 12 AM or 12 PM. He works around the clock to get the job done. He never said No even if the work we gave him sometimes fell outside the scope of the project. I highly recommend him.

He is a fast learner and we look forward to working with him for years to come.

Ulrich M

May 2022

Narimo systems Founder

Andri has supported us in our project for re-developing a mobile and web-based GIS Application based on Vue.js.

He has helped us a lot to get forward with the project, has developed to be very productive in developing new features and bugfixing equally.

Andri is working well with the entire team, gives frequent feedback about his progress, responds quickly, is available and easy to work with. I definitely recommend working with Andri and am looking forward to do the same

# Projects

Infitech

<https://infitect.vercel.app/>

your digital problems into a new wonderful solutions that could scale your business up.
